

EmbroideryFX

Organize your work order and production process from start to finish.

EmbroideryFX (EFX) takes control of the organizational process. Eliminate delays or mistakes for customer orders. Gain quick access to customer files. Save on shipping costs from your vendors. Know your customers order history. These are just a few of the benefits gained when you add EmbroideryFX to your business.

- **Create Work orders.**
- **Specify design and artwork parameters.**
- **EFX instantly generates Purchase orders from the work order.**
- **Adds markup to your products.**
- **Import customer information from your accounting system.**
- **Import vendor products and pricing.**
- **Create a quote complete with quantity, design charges, tax and shipping cost.**

EFX is simple to operate. You are guided through each field and EFX reminds you to fill out fields that you may have missed. There is also a design information form to complete. The design form saves specific information pertaining to the art or design being run for the customer.

When a work order is created... EFX automatically generates a purchase order to your vendor(s). Once these products arrive. Simply check them into the system. EFX maintains a record for any back orders. This feature will help eliminate delays in completing the order on time.

When the customer order is complete just close out the work order. A permanent record is saved for this customer. Whenever a customer calls to repeat an order. You now have the order history at your fingertips.

Every form field is searchable. Look up anything from order history to open work orders to vendor back orders... 100% of your work record is now accessible with EFX.

- **Quick easy access to:**
- Customer order history.
- Open work orders.
- Work order due dates.
- Design information for every work order.
- Vendor purchase orders.
- List purchase orders by vendor, print then fax.
- Track vendor product delivery.
- Track vendor back orders.
- Match vendor delivery with a work order number.
- List open purchase orders.
- Print any work sheet.

**The bottom line is that you now have access to all work history.
Now your time is free to run your business.**

Whether you are a small home business to a large multi-machine shop. EmbroideryFX will keep you organized. Purchase just one copy of EFX for your business whether you need a single station or a multi-user network. To network EFX you must purchase File Maker Server, an off the shelf program.

Some answers to frequently asked questions.

Can I see what the work order status is... at any time?

Yes, you can search by customer or by status in general to see progress of any open work order.

How can I remember what to order from my vendors?

Fortunately EFX automatically creates the Purchase orders for you once you have created a work order.

Will the customer or my employees see my cost on blanks?

No, They will only see the retail prices based on your preset mark up.

Can I create invoices?

No, EFX is designed to work in conjunction with your accounting system. You will still need to generate invoices from your current accounting system.

Can I edit any field in any form with different information?

Yes, you can customize pull down menus or highlight any field and edit its content.
